

Phoenix Surfacing's skilled team of experts have solid experience working alongside golf clubs and leisure facilities, offering a high quality, convenient service and real benefits to you.

## Woburn Golf Club

The Phoenix team have completed a number of projects at the Woburn Golf Club, including the re-surfacing of golf buggy tracks which lead to the putting green, plus the construction of a "raised" driving range incorporating Axo-Gold surfacing system.

The team also completed the construction of a new car park and re-surfacing of existing, including the related ancillary drainage works.

Please see overleaf for a full list of relevant projects completed by the Phoenix team.
